

# TRITAN®

PRECISION POWER TRANSMISSION COMPONENTS

# MOUNTED UNITS

## Traditional Mounted Units

Standard units feature a one piece cast iron housing, a pre-lubricated bearing insert, and a grease fitting for additional lubrication. Units are available in both Set Screw and Eccentric Collar Lock, in light, standard, and medium duties. Triple Lip Seals (R3) are also available on some units.

## Pillow Block Units

Available Series:

- UCP
- HCPK
- UCPX
- SBP
- HCP
- UCPK
- UCPAA
- SAP

## Two Bolt Flange Units

Available Series:

- UCFL
- UCFLX
- SAFL
- SALF
- HCFLU
- SBFL
- SBLF

## Four Bolt Flange Units

Available Series:

- UCF
- UCFX
- SBF
- HCFU
- SAF

## Ball Bearing Inserts

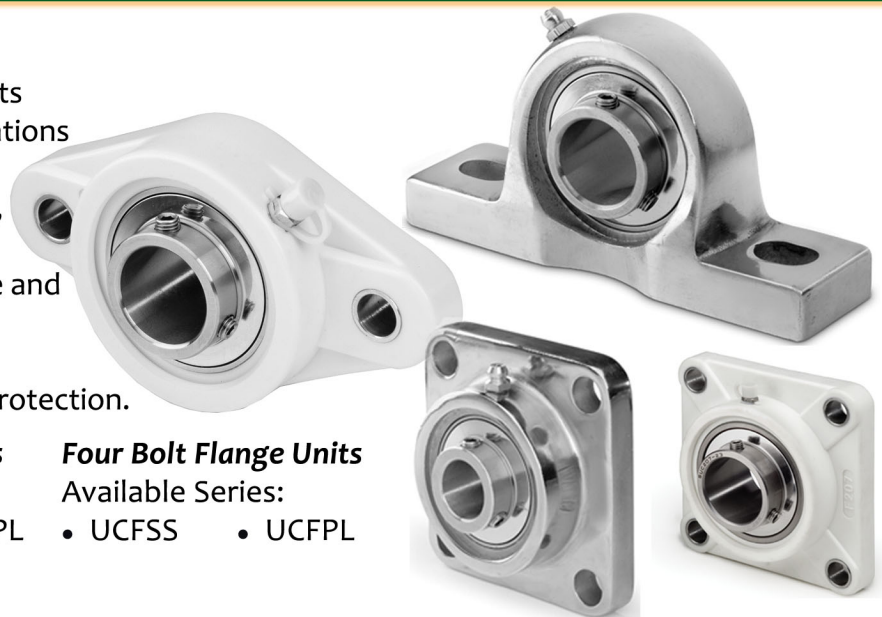

Constructed of high quality 52100 steel, ball bearing inserts are used inside pillow block and flange housings or in custom housed applications. They are available in both Set Screw and Eccentric Collar Locking, and many series are also available with optional Triple Lip Seals (R3) or in Stainless Steel Construction.

Available Series:

- UC
- SB
- CSB
- HC
- SA G
- ER
- UCX
- SB G
- SSUC
- SA
- CSA
- SSER

## Washdown Units

Stainless Steel and Thermoplastic Mounted Units are corrosion resistant and designed for applications requiring clean operating environments and frequent wash-downs, such as food processing, packaging, and pharmaceutical production and handling. All units are supplied with a solid base and are lubricated with FDA food approved grease. Stainless units are produced with a smooth, polished surface for superior appearance and protection.

## Pillow Blocks

Available Series:

- UCPSS
- UCPPL
- UCPAPL A

## Two Bolt Flange Units

Available Series:

- UCFLSS
- UCFLPL

## Four Bolt Flange Units

Available Series:

- UCFSS
- UCFPL
